Agriculture and farming

Description

Activities conducted in a farm or agricultural business but not transport of farming products for third parties. May include incidental transport of own goods.

What it is not:

- Contract harvesting
- Transport of agricultural supplies

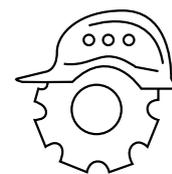

Construction and civil engineering

Description

Mobile plant used in government and public infrastructure activities, including road and bridge works, and large construction activities such as high-rise, residential and public amenities works.

What it is not:

- Demolition, general earthmoving, landscaping or mining

Contract harvesting

Description

Anyone who generates an income from harvesting other people's crops, or who contracts harvesting equipment to others for income.

What it is not:

- Agriculture or farming

Crane operations

Description

Mobile or tower crane operations.

What it is not:

- Crane arms mounted on vehicles should be added as on-hook cover

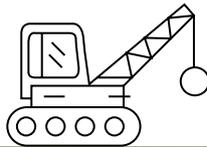

Demolition

Description

Demolition of structures such as buildings.

What it is not:

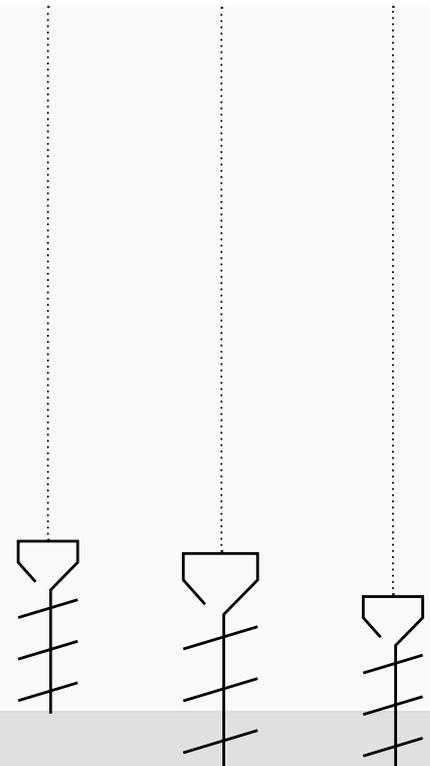

- Transport of demolition or building-site waste

Drilling and boring operations

Description

Commercial drilling and boring.

Earthmoving and excavation

Description

Site preparation, land clearing, excavation and general earthmoving.

What it is not:

Demolition, mining, pipe laying, drilling, boring or road construction

Hire and rental

Description

The dry hire of vehicles, plant, machinery and equipment for a fee.

What it is not:

- Wet hire of trucks, vehicles or plant and machinery where the insured provides employees to operate the equipment

Landscaping

Description

Using mobile plant for landscaping activities, including both large projects and small residential activities.

Equipment predominantly consists of mini excavators, skid steers (Bobcats), lawn mowers and rigid tippers.

What it is not:

- Demolition, drilling, piling and boring, mining or road construction

Logging and forestry

Description

Operating plant or machinery in a forestry area for tasks such as harvesting, logging, felling or stripping.

What it is not:

- Transport of logging products on a road

Mining: Coal

Description

Mining of coal and related activities.

What it is not:

- Underground mining or the transport of coal from a mine site

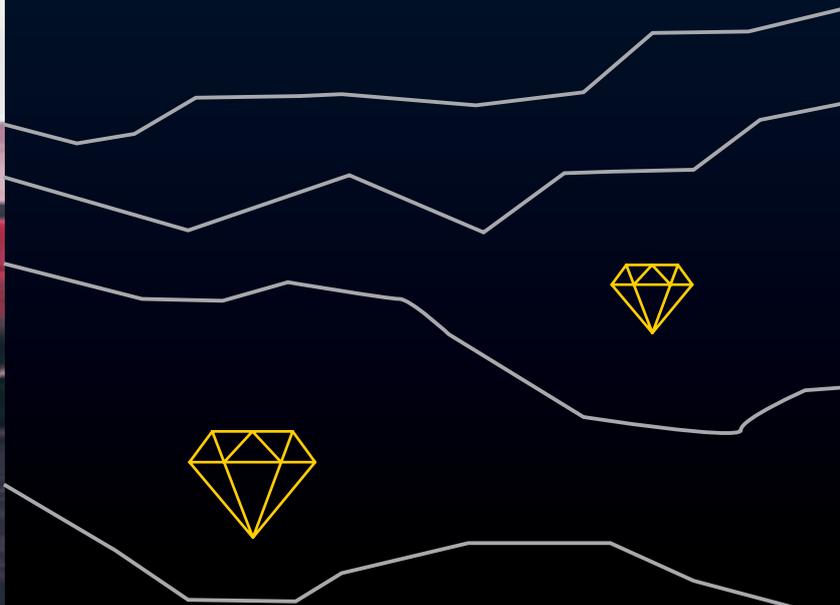

Mining: Hard rock (not coal)

Description

Hard-rock mining such as for granite, gold, marble or diamonds.

What it is not:

- Coal or underground mining

Mining: Minerals

Description

Mining - but not transport of - minerals from a mine site.

What it is not:

- Underground mining, mining of coal, mining of hard rock or transport of mining products on a road

Mining: Underground

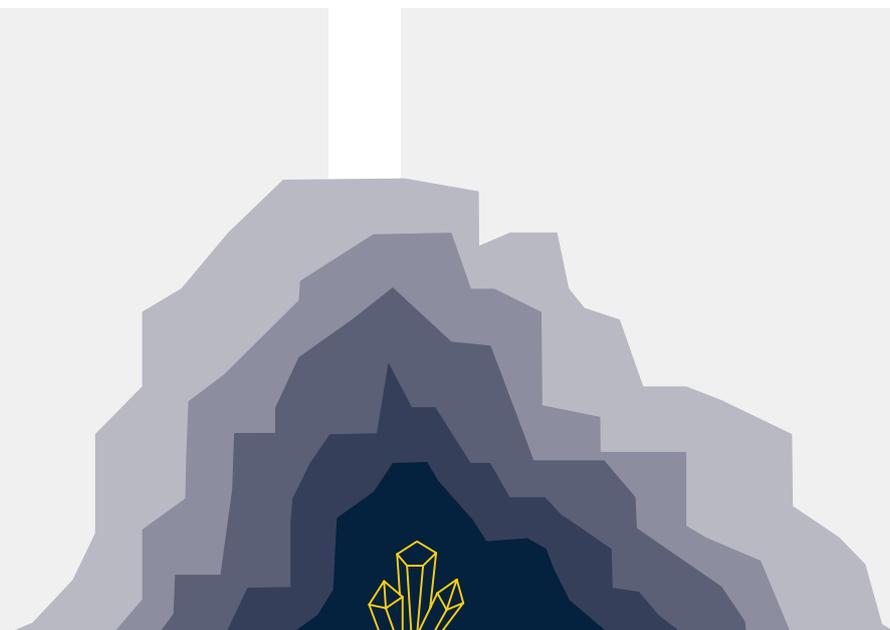

Description

Mining of any materials that principally takes place underground.

Please also ensure you confirm underground operations on the Motor High Risk Activities questions.

What it is not:

- Mining that takes place above ground

Pipe laying and trenching

Description

Installing or laying piping such as sewerage lines or oil, water or chemicals pipelines.

Quarrying

Description

Mining rock, sand, gravel, limestone and the like in small quarries.

What it is not:

- Mining coal or hard rock, or underground works

Road construction and maintenance

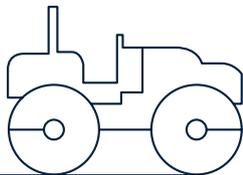

Description

The construction, design, repair and maintenance of roads, their surfaces, driveways, parking lots and the like, including laying asphalt and hot bitumen.

What it is not:

- Pure site preparation

See: [earthmoving/excavation](#)

Tradesmen and builders

Description

Any tradesmen and builders.

What it is not:

- Tradesmen who perform other activities noted in this list, such as drilling and boring, earthmoving and excavation, or quarrying
